

# EPOXY BUSHINGS

**Crosslink Technology** is your reliable and speedy supplier of epoxy bushings. Crosslink's Partner program offers faster and guaranteed lead times.

We adapt to your supply needs and set up a **customized** part stocking program for **efficient** inventory management and **delivery**.

**Crosslink Technology Inc.**  
Epoxies, Urethanes • Custom Cast Parts

For over 40 years Crosslink's Epoxy Bushings have been field-tested, without a single failure. Our Epoxy Bushings are manufactured to the highest quality and offer outstanding performance and durability.

## Advantages of Epoxy Bushings

A low partial discharge

A thermal coefficient of expansion 1/20th that of porcelain

Compression strength four to six times greater than glazed porcelain

Flexural strength of cycloaliphatic that is up to 15 times greater
